SHUNNE GABRIEL M. SANDOVAL

Graphic Designer • UI/UX Designer • Marketing Designer
sandoval.shunne24@gmail.com • (+63) 09164693981 • Caloocan City, NCR, Philippines • https://shunne24th.github.io/portfolio/

PROFESSIONAL SUMMARY

- Graphic designer with hands-on experience creating marketing materials, social media graphics, promotional content, and digital assets for brands and campaigns. Also experienced in designing user interfaces and mapping user flows for mobile game projects using Figma and Unity. Comfortable working independently or with a team, turning creative ideas and project requirements into clear, functional visual designs.

PROFESSIONAL EXPERIENCE

Multimedia & Marketing Design Intern | Servicio Service Provider *2025*

- Created marketing materials for a product launch, including publication materials, flyers, and digital advertisements.
- Designed app icons and UI assets based on the product's branding guidelines, maintaining a consistent visual style across platforms.
- Edited promotional videos for social media campaigns and client presentations.
- Worked with the marketing team to turn campaign ideas and brand direction into finished visual materials.

Freelance Graphic Designer | Firearms Training & Safety Industry *2025 – Present*

- Create graphics for Facebook and Instagram, including social media posts and promotional materials, while maintaining the client's brand identity and visual style.
- Handle projects from the initial brief to final delivery, independently translating client requests into finished graphics.
- Develop content ideas and visual concepts when projects require both creative planning and graphic design.

PROJECT PORTFOLIO

Cats and Rats Party Scramble | UI/UX Designer & Level Designer *Academic Project*

Asymmetrical multiplayer mobile block-puzzle game developed in Unity • Showcased at UCC Games Exhibit

- Designed the game's user interface for a child-friendly audience (ages 7+), using a cat-themed visual style and straightforward layouts to make the screens easy to understand.
- Mapped the main user flow in Figma, covering screen transitions from the main menu and level selection to gameplay and back.
- Applied a simple and approachable design style while keeping the interface aligned with the game's puzzle mechanics and strategic gameplay.

Paagaw Challenge | Lead 3D Level Designer, UI Designer & C# Scripter *Academic Project*

Unity-based 3D game • Showcased at UCC Games Exhibit

- Led the 3D level design, creating the game's environment and level architecture in Autodesk Maya.
- Organized 3D assets using consistent naming conventions and functional categories, making models easier to manage throughout production and Unity integration.
- Designed the game's menus and user interface, focusing on clear layouts and integrating the visual assets into Unity.

EDUCATION & ACADEMIC CONTRIBUTIONS

Bachelor of Science in Entertainment and Multimedia Computing | University of Caloocan City *April 2026*

Relevant Coursework: UI/UX Design, Visual Communication, Digital Media Production, 3D Modeling & Animation, Game Design.

Technical Demonstrator — Game Design Webinar | University of Caloocan City *March 2026*

- Presented a demonstration on 3D environment creation in Unity using Autodesk Maya during a department-wide webinar attended by 50+ participants from multiple institutions.
- Walked participants through the production process, covering concept development, 3D modeling, UV mapping, texturing, and Unity integration.
- Explained technical concepts and modeling workflows through practical demonstrations for students with varying levels of experience.

CORE COMPETENCIES & TECHNICAL SKILLS

Graphic Design: Brand Identity, Marketing Collateral, Social Media Graphics, Digital Advertising, Print Design, Digital Illustration.
UI/UX Design: User Interface Design, UI/UX Design, User Flow Mapping, Mobile Game UI, Interface Layout.
Design Software: Figma, Adobe Photoshop, Adobe Illustrator, Canva, Clip Studio Paint, Krita.
3D & Video Production: Autodesk Maya, 3D Modeling, UV Mapping, Texturing, CapCut, Video Editing.
Development & Game Design: Unity, C# Scripting, Game UI Implementation, Scene Transitions, Audio Integration, Level Design.
Professional Skills: Client Communication, Cross-functional Collaboration, Visual Communication, Presentation Skills, Independent Project Management.
